Group 19: Metadata Module for The Content Creation Pipeline
Sponsors: NETC - Randy Denney, Franklin Ludgood, Heather Cushnie-Wescott, James Yanello

Group Members:
Mohammad Chowdhury
Isaam Siddique
Sekai Wynn
Akeno Williams
Dylan Hawryluk

The .zip file includes the entirety of the Content Creation Pipeline: Message Broker, Metadata Module, Dashboard Module, and Image Module.

Although we've changed the previously built message broker system, our **core files** are stored within the Metadata_Module folder. There, you will also find the documentation and the final report.

Path to Metadata Module Files:
ContentCreationPipelineWindows/DockerFile/Metadata_Module
